

INFORMATION ON SALARY INCREASES IN CASE OF STRIKE

AFSCME has recently announced a strike vote and in some cases, AFSCME-represented employees are asking if they will still receive proposed salary increases if they do not participate in a strike. It is important for UC employees to know:

Employees represented by a union are entitled to the full terms of a contract, regardless of their participation in a strike.

-AND-

No employee is ever under any obligation to strike.

Unions are legally prohibited from threatening or coercing members in other ways to keep them from coming to work. In the event that UC and the Union reach agreement on a new contract for AFSCME-represented employees, all employees in the affected bargaining unit will receive wage increases as agreed upon.
